MetaTrader4 (MT4) Plugin Developer - Limassol

A Leading Financial Technology Company based in Limassol, Cyprus is looking to hire a MetaTrader4 (MT4) Plugin Developer. The ideal candidate will have previous experience in carrying out all phases of product development projects from planning, development, reporting through to implementation.

Responsibilities:

- To work on various MetaTrader4 (MT4) development and support projects
- To develop real-time mission critical software
- To enhance the effective use of the MetaTrader4 (MT4) systems by business, technology and operations departments.

Requirements:

- 3 years experience in MetaTrader4 (MT4) plug-in development
- Excellent knowledge in C/C++/C#, .NET, API (Mysql and MT4) and SOAP
- Working knowledge from interfacing of MT4 to databases (MySQL, Oracle)
- Professional knowledge of Windows 2008 and 2012 servers (32 and 64-bit)
- Diploma or degree in Computer Science, or equivalent is a plus, but not a requirement.
- Practical experience in Gitlab, Jira, Redmine and FIX protocol will be considered as advantage.

A competitive salary, based on skills and experience will be offered to the successful candidate.
